EuroMulti security units are designed for providing an increased cash security during working hours. They provide tested physical and psychological protection. Affordable price enables using them for each cashier. It provides different philosophy of security than expensive and heavy safes.

EuroMulti units consist of two main parts – steel box and drawer modules. The front panels of drawers are reinforced with 6 mm thick steel sheets. The drawers are based on modular system which provides hundreds of drawers and deposit slots combinations.
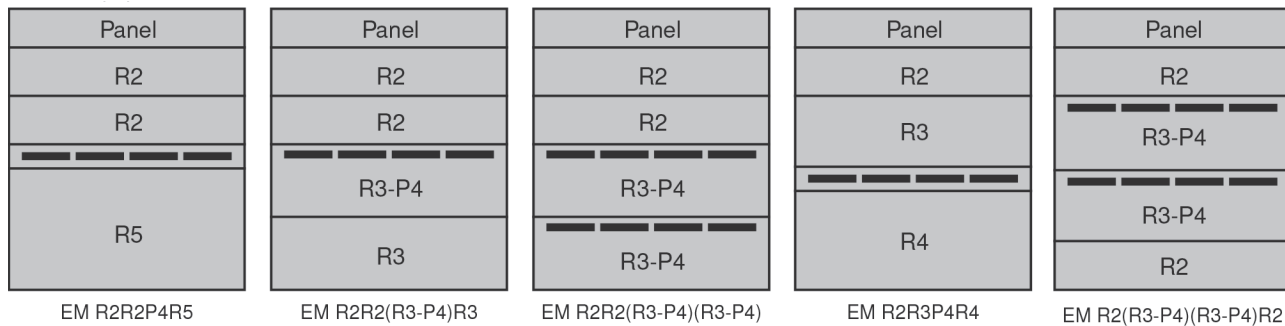

EuroMulti units are mainly used as:

- ✔ Universal for cash deposit/dispense
- ✔ Cash deposit
- ✔ Cash exchange

What do EuroMulti units offer to you?

- ✔ Increasing security for your cashiers and valuables
- ✔ The most effective protection during working hours
- ✔ The best solutions for "open" banks
