

# EuroMulti JUMBO Drawer Modular System

## Content

- 1. Drawer Modules**
- 2. How to use EM II modular system**
- 3. Examples drawer combinations**
- 4. Internal Accessories**

EuroMulti II is based on modular system. It means that you can combine any drawers and deposit panels in way you need. You can build up model you need.

There are 5 Module categories according to height:

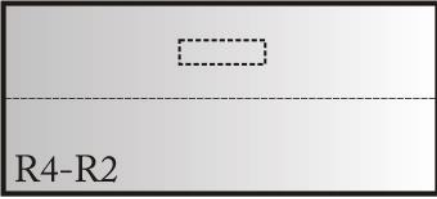

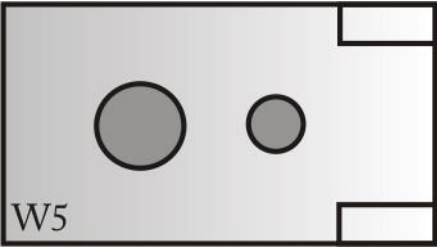

Module height **1** – 54 mm  
Module height **2** – 108 mm  
Module height **3** – 162 mm  
Module height **4** – 216 mm  
Module height **5** – 270 mm

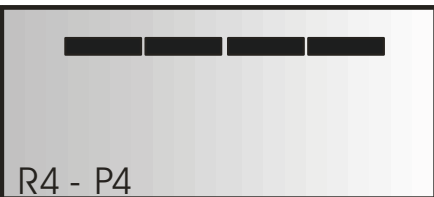

While building up your own Euromulti II model remember:

- total height of any combination of Drawers must be 864 mm
- maximum number of motorized drawer must be 6

Each drawer could be equipped with several accessories according to drawer height.

# Drawer Modules
